Module 5

Models and Audit Trails

Clarification

There are a few places in the textbook where sample project(s) on the IFoA website are mentioned. These are mostly in Chapter 1, but there is also a reference to it in Chapter 4.

Since drafting the textbook, information relating to the CAA exams has moved to the CAA Global website, <https://www.caa-global.org/>. Instead of a sample project, past exam papers are now available, along with model solutions and Examiners' Reports.

We therefore recommend that you work through some of the past exam papers as part of your revision for the Module 5 exam, rather than the sample project.
